"The State and Revolution" is the title of a pamphlet written by V. I. Lenin, the first dictator of the Soviet Union, in August 1917, just a few weeks before the Bolsheviks seized power in Russia. This pamphlet summarizes the tasks of the proletariat in relation to the *"state"* during a revolution. Used in this sense, the word *"state"* is a synonym for the word government.

Quoting a letter, written by Karl Marx, on April 12, 1871, to Kugelmann, one of Marx's confidants, Lenin wrote as follows: "If you look at the last chapter of my "Eighteenth Brumaire", you will see that

A MESSAGE to WAGE EARNERS

Communists Will Wreck American Labor

One of the chief activities of the Communists is to gain control of labor unions for the purpose of setting the stage for their planned industrial revolution to take over industry, to be followed by a one-party dictatorship.

This would abolish our democratic form of organized labor, our American way of collective bargaining, and deny the wage earners the right to work where they please. It would abolish private ownership of homes, of property, of industry and of business. It would abolish freedom of religion, freedom of speech and freedom of the press.

In a letter to a C. I. O. official, a high Communist leader in Missouri stated, "The very hope for Communism and Socialism rests on the strength of organized labor."

Do American wage earners want such a set-up in the United States? Can the rank and file members of organized labor do anything about it? Can the unorganized wage earners of the country do anything about it?

The rank and file members of labor unions can oust the Communists. They can stipulate in their union by-laws that no Communist, Nazi, Fascist, subversive, or radical agitator can hold either elective or appointive office.

The unorganized wage earners can, before committing themselves to membership, demand proof that Communists and other undesirables have been ousted. They can, before committing themselves to membership, demand proof that the by-laws of unions stipulate that no Communist, Nazi, Fascist, subversive or radical agitator can hold elective or appointive office.

We believe that labor unions should be so organized, so managed, and their leaders be of such character, that wage earners would consider it an honor to hold membership.

The following is a brief explanation of these dangerous isms which already enveloped one half of the world and which are gradually encroaching on the remaining half. DICTATORSHIP is the ultimate goal of all of these isms. Under such their nationals are chained into eternal slavery, with little if any chance of shaking it off. It is harder to break these chains once you are shackled with them, than it is to prevent them from being clasped upon you. Your future safety lies in the present fight to stop dictatorial encroachments now and your future will be liberty, not chains.

1 — What is Communism in theory?

Communism in theory is purported to lead to the establishment of a Utopia for the "downtrodden," in which the working class is supposed to govern itself. Under the theory of communism, all things would be "owned in common," and everyone is expected to "produce for use, and not for profit." The profit system or individual gain is, in other words, supposed to be taboo under communism, and each supposedly works for the masses, all are expected to produce for and eat from the common trough. There is supposed to be no class distinction between the peoples; the middleman and the boss are supposed to be eliminated under communism. All are said to be reduced to one level, and only one class supposedly remains—the worker.

2 — What is Communism in practice?

Communism in practice is a ruthless dictatorship; the regimentation of all humanity; the massing of all labor into dictatorship controlled union; the fixing by the dictatorship of wages, hours, kind and place of work, speed of production, means and manner of living, with labor robbed of its right to protest by mouth or strike; it is a strict censorship of individual speech and individual action. It is a system of government ownership and control of all means and sources of production and livelihood, from the farm to the mine and factory and to the distribution of the raw and finished products therefrom. It is the regimentation of all workers, including farmers (since there are no farm owners permitted under communism), the confiscation of all they produce and control of their methods, and sources and manner of livelihood. It is the regimentation of women who are all forced to manual labor outside the home, and of the children who are herded into institutions at the will and direction of the dictator. It is, generally speaking, a system of companionate marriage or loosely tied matrimony under which illegitimacy is glorified. It is the regimentation and destruction of religion by a form of government which promotes organizational and agitational campaigns against religion and in behalf of atheism. It is the government ownership of wholesale and retail business, and the regimentation of those employed therein. It is a form of government under which only one per cent of all the people are permitted at any one time to belong to the only political

(DEPARTMENT OF ANTI-SOCIALIST ECONOMICS).

This publication, which will be issued monthly, is designed for the special use of speakers, who may be required to meet the fallacies of socialistic opponents.

It will comprise items of information taken from the current newspaper press or otherwise, illustrating the character of present socialistic argument, and the misrepresentations to which socialistic speakers indulge. It will be indexed in such a manner as to facilitate future reference.

In the case of statistical information, etc., taken from anti-socialistic sources, the nature of the information itself, and the source from which it is taken, will be a sufficient guarantee of the authority which readers will be justified in attaching to it.

CURRENT NOTES.

The shrinkage in the Socialist poll at Croydon is most interesting. Seeing that only a few weeks previously the same candidate, Mr. Frank Smith, contested Taunton and polled heavily, one is driven to look for some new factor which was present at Croydon, and which was lacking at Taunton. This, probably, is to be found in the popular demand for more Dreadnoughts. The Socialism, which at Taunton ranged round domestic issues, and was, to a point, sufficiently attractive in its so-called constructive policy, failed miserably at Croydon before the menace of National safety and Imperial defence. The curious thing is that many Socialists themselves were quite prepared to concede as many Dreadnoughts as the electors demanded. On the whole, it is reasonable to believe that the anti-national policy of Socialism will yet prove to be one of the strongest grounds of attack. As empire-maintainers, the Socialists have naturally been under suspicion for some time, and Mr. Keir Hardie's crusade has deepened that suspicion. When empire issues are raised forcibly we may expect, after the lesson at Croydon, that Socialism will be snowed under. It would be unwise for anyone to take the Croydon figures and draw any

What are you going to do about it?

Communists are linked definitely and undeniably to a world organization whose center is Russia and whose chief is Stalin. They are *not* Americans for they foster a doctrine that is determined to destroy *by force* American Democracy. Let Mr. Stalin himself spout soft and honeyed phrases with the hope of deceiving an already duped world-audience. The cold logic of facts condemn them.

Study the facts as found in this pamphlet.

WHAT IS COMMUNISM?

LIBRARY OF CONGRESS 3 AUG 31 1978 COPY EXCHANGE & GIFT

"Communism is not only a creed. It is a plan of campaign. A Communist is not only the holder of certain opinions; he is the pledged adept of a well-thought-out means of enforcing them. The anatomy of discontent and revolution has been studied in every phase and aspect, and a veritable drill book prepared in a scientific spirit for subverting all existing institutions. The method of enforcement is as much a part of the Communist faith as the doctrine itself. At first the time-honored principles of Liberalism and Democracy are invoked to shelter the infant organism. Free speech, the right of public meeting, every form of lawful political agitation and constitutional right are paraded and asserted. Alliance is sought with every popular movement towards the left.

"The creation of a mild Liberal or Socialist regime in some period of convulsion is the first mile-stone. But no sooner has this been created than it is to be overthrown. Woes and scarcity resulting from confusion must be exploited. Collisions, if possible attended with bloodshed, are to be arranged between the agents of the New Government and the working people. Martyrs are to be manufactured. An apologetic attitude in the rulers should be turned to profit. Pacific propaganda may be made the mask of hatreds never before manifested among men. No faith need be, indeed may be, kept with non-Communists. Every act of good will, of tolerance, of conciliation, of mercy, of magnanimity on the part of Governments or Statesmen is to be utilized for their ruin. Then when the time is ripe and the moment opportune, every form of lethal violence from mob revolt to private assassination must be used without stint or compunction. The citadel will be stormed under the banners of Liberty and Democracy; and once the apparatus of power is in the hands of the Brotherhood, all opposition, all contrary opinions must be extinguished by death. Democracy is but a tool to be used and afterwards broken; Liberty but a sentimental folly unworthy of the logician. The absolute rule of a self-chosen priesthood according to the dogmas it has learned by rote is to be imposed upon mankind without mitigation progressively forever. All this, set out in prosy textbooks, written also in blood in the history of several powerful nations, is the Communist's faith and purpose. To be forewarned should be to be forearmed!"

There is hardly a man in the United States today who is not conscious that something very fundamental is wrong in this country regardless of his point of view, whether it be that of the common laborer, educator, minister of the gospel, home owner or business man.

History has proven that only under a sound form of government can a people be happy, prosperous and contented. Therefore, it is timely that we examine carefully our philosophy of government and see if any causes of our present difficulties can be found.

In 1787 a group of intelligent statesmen of great physical vigor, mental acumen, thorough knowledge, practical wisdom, far-sighted vision and moral courage assembled in Philadelphia and after months of discussion and deliberation produced the Constitution which provided for the Republic of the United States of America.

As long as this republican form of government was continued, our Republic was the envy of all the world. Our economic, social and moral development progressed more rapidly and efficiently than that of any other nation. However, political moves have taken place during the past twenty-five years, and more recently under the New Deal, which have weakened our form of government which if continued will bring about an entirely different form of government and must end in chaos and anarchy. It is because the American people are unfamiliar with the advantages and purposes of our republican form of government and because they do not understand the dangers and weaknesses of pure Democracy that we are now at the crossroads.

The founders of our government were fully aware of the weaknesses of Democracy and it is easy to see from an examination of the literature available at that time that in all their deliberations the one type of government which they were attempting to avoid was a Democracy. They created a Republic. They limited the powers of government by a written Constitution. To preserve the limitations of government and the liberties of the citizen, they established a series of checks and balances with three branches—legislative, executive and judicial—each and everyone independent of the other. And in their further attempt to avoid Democracy they guaranteed in the Constitution a republican form of government to each State.

The Writers' & Illustrators' Guild.

I will start anew this morning
With a higher, fairer creed;
I will cease to stand complaining
Of my ruthless neighbor's greed.

I will cease to sit repining
While my duty's call is clear;
I will waste no moment whining,
And my heart shall know no fear.

I will always look around me
For the things that merit praise;
I will search for hidden beauties
That elude the grumbler's gaze.

I will try to find contentment
In the paths that I must tread;
I will cease to hold resentment
When another moves ahead.

I will not be swayed by envy
When a rival's strength is shown;
I will not deny his merit,
But I will seek to prove my own.

I will always preach the gospel
Of my Country—rain or shine;
I will wipe out all subversion
For its your concern—and mine.

I will defend my loved-one's fireside;
They may keep their trust in me;
I will give my blood; my heart; my all
To keep this fair land free.

I will ever bar intolerence
To preserve our Freedom's goal;
I will give every waking moment
I will give my very soul.

EXCLUSIVE RELEASE

It has been reported from unimpeachable sources that the strike-strategy, to hamstring our entire rearmament effort, was formulated by the leading functionaries of the Communist Party of America, in the City of Chicago, Illinois, during the first week of November, 1940.

Robert Minor, who has succeeded Earl Browder as executive secretary of the Communist Party presided during the meeting. The plan was to disrupt our war-effort as we reached the peak of our productive effort. The plan was put into effect several weeks ahead of schedule upon orders from Moscow, according to a most reliable report.

FLASH

The recent announcement made by Richard Frankenstein and Walter Reuther that they would introduce a resolution to the NEXT annual convention of the UAW-CIO, whereby members of the CIO would be barred from any appointive or elective office in either the international or local unions, if they profess Communist, Nazi or Fascist theories, created quite a sensation. It has been reported that these two individuals have achieved their present important ranking position in the UAW-CIO, through the assistance, and close cooperation, of the Communist element.

While it has been contended that Frankenstein has never been affiliated officially with any of the extreme radical groups, he is nevertheless reputed to be an opportunist who would be unlikely to fail in entering any alliance to promote his personal ambitions. While Walter Reuther was in Soviet Russia he is reported to have eulogized the present experiment in Soviet Russia in writing as well as from the public-speaker's platform.

The present epidemic of strikes is definitely t result of a carefully planned conspiracy on the pa of the Communist functionaries and is being carri out by the members of the Party upon direct orde There is much evidence that a considerable numb of (conservative) labor leaders are power-drunk a are unconsciously playing into the hands of the e tremists.

IMPORTANT LABOR RIFT?

It has been reliably reported that Richa Frankenstein and Walter Reuther are in disfavo and that an organized attempt is now in process t remove Frankenstein and Reuther from leadershi in the UAW-CIO. This movement, according to th report, has been put into motion by Communist i every local.

REPORTED REASON

The dissatisfaction, on the part of the well en trenched leadership of the Communists, with Frank enstein and Reuther's leadership in failing to cal an immediate strike, upon the insistence of th Communists' leaders, without granting the delay re quested by the National Labor Relations Boar pending the recent negotiations.

According to informed sources, both Franken stein and Reuther insisted that a postponement o the (then) proposed strike should be granted, and since they represent the organization in all negoti ations, a delay was granted by the union.

COMMENT

The Communist "strike-first" policy and negotiate later was side-tracked. The record of the Communists shows that they are not concerned with the results of any negotiation as long as they are enabled to cripple and paralyze ARMAMENT PRO-

The Korean War was Made In Washington

BY Truman, Acheson, Marshall in Secret Cooperation with Stalin

CONGRESSIONAL
JUN 3 1 1976
COPY
RECORD AND LEGISLATIVE DIVISION

Their successful method has been "To talk one way, but do another." (Budenz testified that the secret formula agreed upon in Communist meetings with Lattimore was "That they would talk one way but do another.")

By this method of deception, they "talk against Communism, but act for it."

They have successfully deceived even their opponents, who have considered the Truman-Acheson-Marshall actions "bungling" whereas they have been "with design."

Truman-Acheson-Marshall have done everything to help Communism at home and abroad, namely:

1. Refused to discharge 2000 Communists on Government payrolls.
2. Refused to lock up a single Communist since passage of Communist Control Act (passed over veto) thereby allowing them to infiltrate our defense plants.
3. Hire to represent US on United Nations, Gustavo Durand at $11,700 per year, who is a former head of a Russian Secret Police Society in Europe.
4. Refused to allow access to information in Government files in the trials of alleged Communists.
5. Tried to discredit the Hiss and Remington trials, calling them "red herrings."
6. Dumped into the sea 120,000 tons of ammunition (which we had stored in India after the last war) rather than give it to the Chinese Nationalists.
7. They gave China to the Communists in 1947 by sending Marshall there with the following instructions from Acheson, which Marshall carried out.
   (a) Placed an embargo on American and British arms to Chinese Nationalists.
   (b) Forced Chiang Kai-Shek to open the Kalgian Mountain Passes, through which Russian Arms then flowed to the Chinese Communists.
   (c) Forced Chiang Kai-Shek to reduce his army by one million men, most of whom then joined the Chinese Communist Army, to not be out of work.
   (d) This resulted in victory for the Chinese Communists, and the retreat of the Chinese Nationalists to Formosa.
8. **Truman-Acheson-Marshall made the Korean War as a "pretext" of fighting Communism, whereas they intend it to end in a Communist Asiatic victory over Korea, Indo-China-Thailand, Formoes, and finally over India and Japan.**
   (a) To bring on the Korean War, they purposely did not arm the South Koreans and withdrew our troops, altho they knew Russia armed the North Koreans.
   (b) They would not heed Admiral Rilkenkoetter's warnings of invasion, but Acheson announced in Jan. 1950, that we would not defend Korea nor Formosa.
   (c) They knew Russia would then attack via North Koreans, and Truman then put our troops there "without consent of Congress" in order to start the war as a "pretext" of fighting Communism, intending the Communists to win.
   (d) In order to arrange a Communist victory, they
       (1) Do not allow us to bomb Manchurian Communist Sanctuary.
       (2) Do not allow us air reconnaissance over Chinese coastal cities.
       (3) Do not allow our 7th Fleet to blockade Red China coast, which would stop the war by shutting off Red China's oil supply.
       (4) Do not allow 1,000,000 South Koreans of military age to have arms to fight, altho they are in training. Decree Americans must die instead.
       (5) Do not allow 600,000 Chinese Nationalists on Formosa to invade China.
       (6) Lattimore said "We must let South Korea fall, but don't ever let them know we pushed it."
       (7) When Asia has fallen to the Communists, Europe is next to fall.

CONGRESSIONAL
SEP 20 1976

9. **Truman-Acheson-Marshall intend to make the European War as a "pretext" of fighting Communism, but intend it to end in a Communist victory in Europe.**
   (a) Truman insists on his claim to the right to put troops in Europe without consent of Congress, just as he did in Korea, for purpose of starting the war.
   (b) That is why Truman-Acheson will not admit 1½ million willing Spaniards to a European Defense Army. They do not want us to win against Russia.
   (c) That is why they want us to be involved in a hopeless "Land War" in Europe, where Russia with 300 Divisions will wipe out 40 Allied Divisions.

To anyone but an idiot, it should be clear that "By talking one way but doing another" the Truman-Acheson-Marshall friends of Stalin, are turning over the world to Stalin in their long range plan, which started with the sell-out of China to the Communists in 1947. Their every action helps Stalin, hurts our country. How long does it take you to see the real truth? Wake up, America, and put the deceivers in the penitentiary, for treason.

Ninety-nine per cent of the people are for MacArthur, because he is for our country. Democrats who side with the Administration are not Democrats but friends of Stalin. They will be replaced at next election by other Democrats who are willing to side with the people who elected them instead of with Stalin.

The secret plan of the Truman-Acheson-Marshall plotters is to keep the Korean War going by restrictions which prevent our winning it, and to thus use up our American manpower a'g'ainst the inexhaustible hordes of China, and when America's manpower and money are gone, then Russia, untouched, will jump on helpless America. America! Awake! Can't you see their plan! If you can't you are done. Judge by the record and you can come to no other conclusion.

TIME IS RUNNING OUT. ACT NOW TO THROW OUT ALL CONGRESSMEN WHO SIDE WITH THE TRUMAN-ACHESON-MARSHALL TRAITORS OR OUR COUNTRY IS GONE!
